WELCOME

I'm documentary wedding photographer shooting weddings across Surrey, Sussex, the UK and abroad. My approach is to combine artistic reportage with a natural and contemporary style of portraiture. I work to capture the emotion and spontaneous moments of your day in a relaxed and unobtrusive manner, creating beautiful fine art images that you will admire forever. With a background in shooting documentaries for broadcast television I strive to capture memories that reflect your unique personalities in the most creative and artistic way I know how.

Telling stories through the lens is what I'm good at and I ensure that the couples who I work with feel relaxed having me along to their wedding.

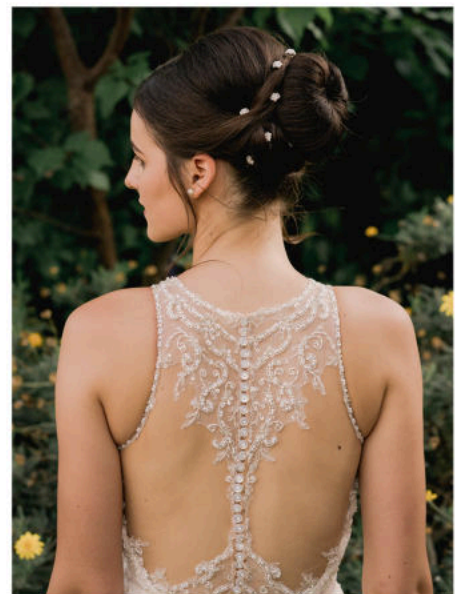

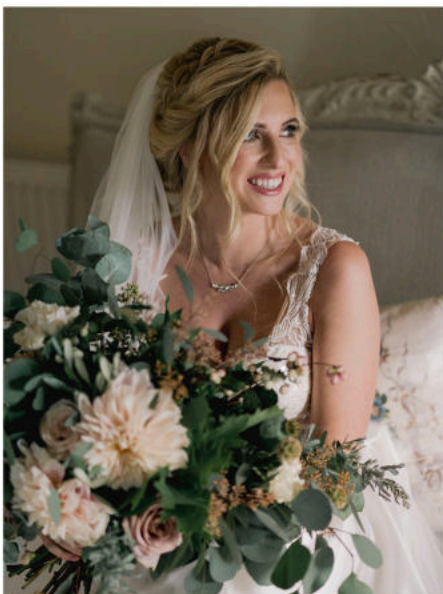

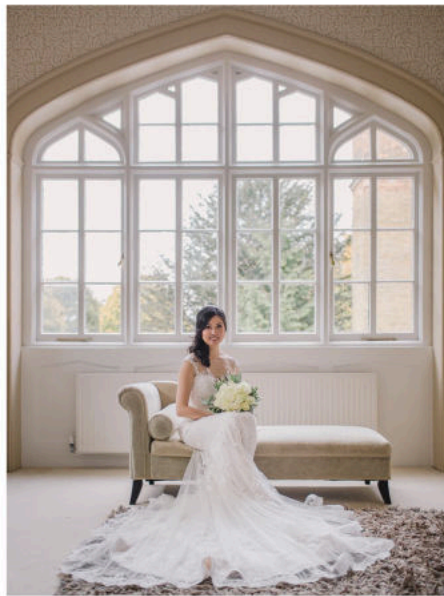

You're probably overwhelmed with all the wedding information out there, but don't worry, you're not alone. I'm here to make things simple and help you along the way!

ABOUT ME

Hi I'm Murray!

I live with my fiancée Louisa and together we have our two beautiful daughter children. I'm friendly and down to earth, good humoured and a perfectionist at heart. I love to travel and discover the natural world and am a big fan of music.

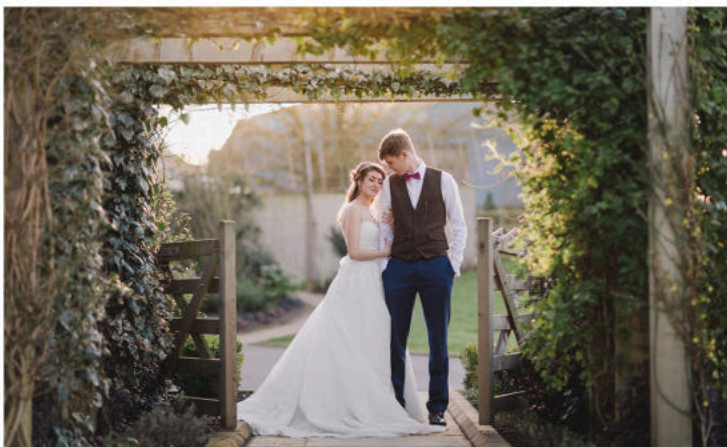

My life behind the lens started as cameraman and editor for broadcast television where I worked for over 10 years shooting documentaries. I bought my first DSLR in 2007 and after taking it around the world on my travels I realised that my true passion was taking still photographs that really captured the moment and told a story. I shot my first wedding in 2011 and after enjoying it so much I decided to become a documentary wedding photographer specialising in natural, fine art images. I love to work in the most creative and compassionate way I can capturing moments that display beauty and evoke emotion.

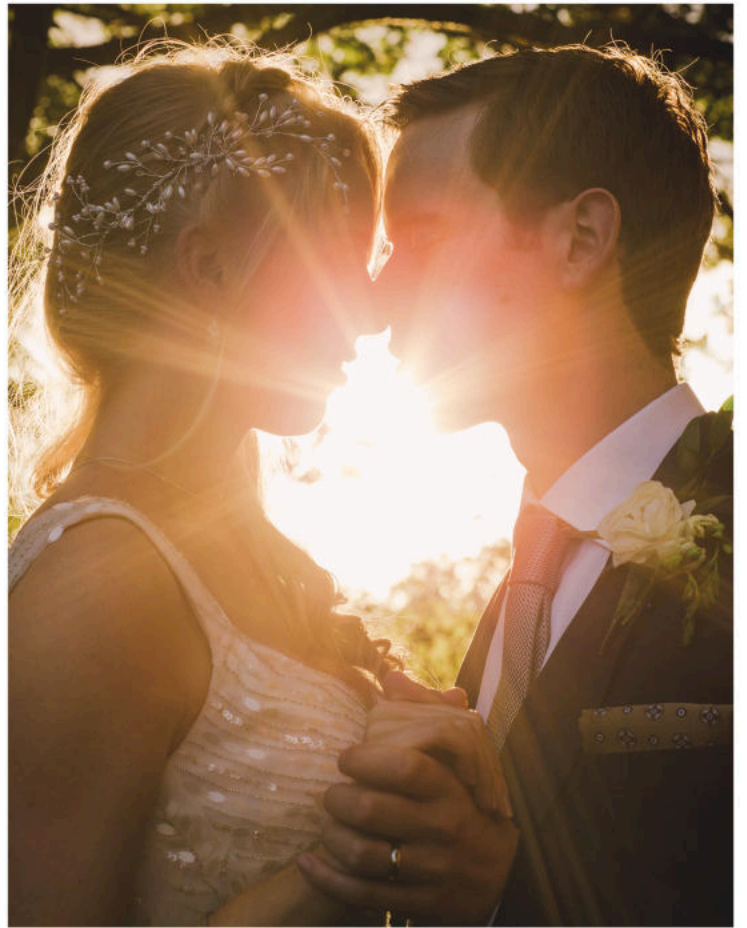

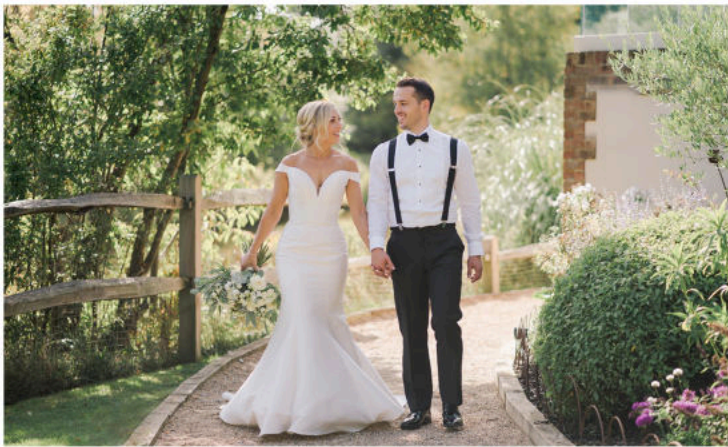

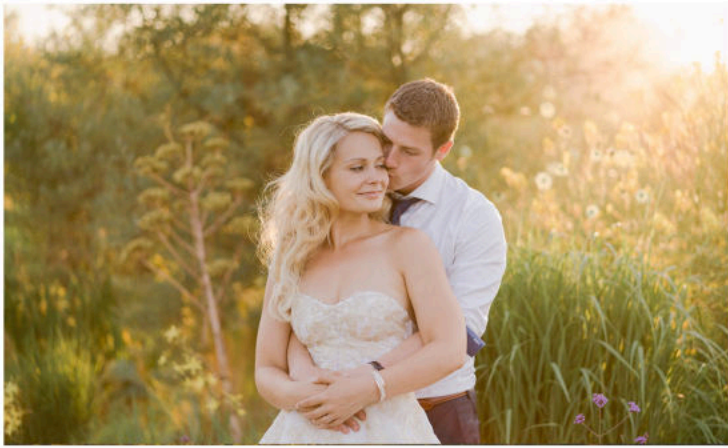

*Having shot over 500 weddings throughout my full time career it's tremendously rewarding delivering images to my clients that literally blow them away! I'm extremely proud of the lovely feedback I receive with currently over **130 5 star reviews**. Please take a few moments to read what other couples have to say about me by clicking on the Google image below.*

COLOUR OPTIONS

FREQUENTLY ASKED QUESTIONS

Q: What makes your work different from other photographers?

A: I take photos with a very natural and personable approach, taking the time to relax my subjects before I even reach for the camera. My vision is to capture my subjects in the most flattering way possible whilst placing them in clean, artistic compositions. Pressing the shutter at the decisive moment is for me absolutely crucial and by becoming part of the wedding this allows me to unobtrusively document the special moments. I offer a premium service and will go above and beyond in every way to achieve perfection. Having worked in film and Television as a cameraman for over a decade my standards are extremely high and despite the many awards and accolades I have received, I will always approach my work with a modest and friendly attitude.

Q: Will we get the print release to our photos after our wedding?

A: Yes! Upon receiving your images, you will also get a full print release and the images will have no watermarks, ready to share with your family and friends.

Q: Do you edit the images?

A: All of the images are individually processed to perfection and retouched in my signature style. These are usually about 90% colour and 10% black & white but please let me know if you'd like a different ratio. My colour palette is soft and light pastels that beautify skin textures and tones. Any obvious temporary blemishes I will remove as well as annoying background distractions. Despite my very efficient workflow I usually spend around 16 hours processing a wedding to ensure the photos are as good as they possibly can be.

Q: When will we receive our photographs?

A: My usual turnaround time is between 2 - 6 weeks depending on my schedule.

Q: Do I have to order prints through you?

A: I highly recommend ordering printed products through my professional lab, but it is not required.

Q: Do you have insurance?

A: I am fully insured with professional indemnity and public liability insurance.

Q: Do you carry back up equipment?

A: Yes I have carry 2 of the very latest professional camera bodies (2 x Sony A1, Sony's flagship mirrorless camera) along with a selection of back up lenses and flashes should anything fail. My cameras also write to dual memory card slots so an instant back up of your wedding photos is created whilst I'm shooting.

Q: Will we get featured in a magazine or blog?

A: Although many weddings get featured, this is not something that is guaranteed and of course at is your discretion.

Q: Do you require a meal on the day?

A: For over 6 hours coverage I ask for a basic hot meal on the day to keep me going. Most couple's put £15/£20 behind the bar to cover food and drinks.

Q: Do you photograph destination weddings?

A: Of course! I love to travel and have captured weddings in France and Switzerland as well as throughout the UK.

Q: What time will you start and finish?

A: I recommend basing your coverage on 9 hours but I do allow an hour for delays. I will start two and a half hours before the ceremony and finish half an hour after your first dance. I'm fairly flexible and only leave once I feel I have captured everything that I need to tell the story of your wedding.

Q: Where are you based?

A: I live in Worthing just outside of Brighton. My main area of work is in Surrey and for weddings over an hour away from my home I will often book myself a hotel (at my own expense) to minimise travel times.

Q: How do we book?!?

A: A £300 deposit and signed contract is required to secure me for your wedding with the balance due 14 days before the big day. I will also send you an information sheet to fill out which will detail your itinerary and most important guests' names.

He really knows how to 'capture the moment' with his photography. He doesn't just take pictures, anyone can do that. Choosing Murray to shoot our wedding pictures was probably the single best decision we made for our wedding because now we have a wonderful set of photographs which will last forever!"
